## Sick Call Policy

Application: All Personnel

Purpose: To clarify the Sick Call Policy

Responsibility: All soldiers must come to drill regardless of their health. Once the soldier comes to the scheduled drill at the reporting time, the Section SGT and 1SG will determine if the soldier is physically able to stay at drill. It is the Section SGT and 1SG's option to send the soldier home or not. If the soldier is sent home, a RSTA (ReScheduled Training Assembly) will be scheduled before the soldier leaves.

If the soldier is not physically able to come to drill, it is the soldier's responsibility to notify the Unit that he/she will not be attending drill prior to reporting time and a doctor's note must be given to the Unit by close of business Sunday.

A quick recap:

1. Come to drill and have the Section SGT and 1SG determine the soldier's health.
2. Abide by the Section SGT and 1SG's ruling.
3. If the Section SGT and 1SG has determined that the soldier is not physically able to remain at drill, the soldier will be sent home and will not be paid until the soldier's performs his/her scheduled RSTA.
4. If the soldier is not physically able to go to drill, he/she will notify the Unit prior to reporting time and a doctor's note must be given to the Unit by close of business Sunday.
5. Failure to follow this policy will result in an unsatisfactory participation for the drill period.
